

OUR VISION

Individuals and communities transformed by the Gospel, through business.

OUR MISSION

We build global networks of business professionals to serve individuals who launch and grow businesses that increase Kingdom impact in underserved communities.

SUMMARY

At Transformational Ventures®, we believe that profitable businesses, guided by biblical principles, produce economic, spiritual, and social results that are important expressions of the Gospel. Therefore, we come alongside business owners as they launch and grow successful companies, create jobs, and influence their communities.

Transformational Ventures (T-Ventures) is a division of WorldVenture. We leverage WorldVenture's global network and 70-plus years of experience to help business people succeed and integrate their efforts with wider Kingdom strategies.

OUR VALUE PROPOSITION

Help launch and grow businesses

We provide training and resources to entrepreneurs and small business owners in underserved communities, either directly or through local Business Development Centers.

Provide Mentoring & Expertise

We connect entrepreneurs and small business owners with experienced business professionals and with our global networks.

Equip business people and churches to engage in Business as Mission (BAM)

- We equip individual business professionals to engage in a variety of BAM efforts or to be a part of our T-Ventures team.
- We help churches mobilize their business professionals to engage in BAM, aligned with their churches' vision and mission.

Recruit and deploy business professionals (including interns)

We provide organizational support, expertise, resources, and networks to entrepreneurs and business trainers who relocate to new countries.

Integrate business efforts with wider Kingdom work

We promote understanding and collaboration between those in business and other change agents in their communities – such as anti-traffickers, pastors, and community developers.

OUR VALUES

Redemption

We are broken and we live in a broken world. We strive to see individuals, families, and whole communities restored to wholeness and fullness of life. (John 10:10)

Justice

God delights in justice. Through business, we seek to promote justice in communities where power and resources are misused. (Jeremiah 9:23-24)

Collaboration

We believe that transformation is accelerated when individuals work together with humility by contributing their unique skill sets, mindsets, and strategies. (Romans 12:3-8)

Gratitude

We are grateful for all the blessings God has given us. That gratitude inspires us to sacrificially use our time, skills, and resources for His work and the common good. (1 John 3:16-17)

Relationship

We believe that growing relationships with God and others form the foundation for a fulfilling life. We cultivate relationships and promote community in everything we do. (Philippians 2:1-5)

THE LOCAL CHURCH

At T-Ventures, we believe that churches are central in God's work to restore broken people and communities around the world. Therefore, we partner with churches both in more developed economies and in underserved communities.

In more developed economies – whether in the United States, Manila, or Singapore – churches have a wealth of business expertise in their congregations. Their business professionals can create significant Kingdom impact through short-term or long-term involvement. As those business people are transformed through their involvement, they inject new energy, leadership, and resources into their churches' broader mission and outreach efforts.

Local churches in underserved communities play an important role as expressions of life in Christ and the Kingdom of God. They also serve as champions of the common good. At T-Ventures, we connect businesses with churches at a strategic level so that churches can amplify the businesses' spiritual and social impact.
